The Nord Pool Group Response to ERGEG's Guidelines for Good Practice on Information Management and Transparency in Electricity Markets

The Nord Pool Group greatly appreciates the initiative taken by ERGEG to establish Guidelines on Transparency in the IEM for electricity and is therefore committed to actively contribute with input in the process that ERGEG has outlined.

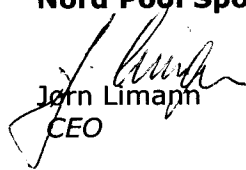

In the adjoining document "ERGEG Info Guidelines – Response by Nord Pool Group 10 May 06" and two appendixes our general views and practises concerning transparency as well as specific comments to ERGEG's proposals are presented.

We hope that the given input will be valuable for the continued process and we would naturally be positive to meet with the Authority at a later date to discuss specific matters of interest.

Yours sincerely
for **Nord Pool ASA**
