

Review date :	07/02/2008
---------------	------------

1		Project description	
1.1 Name of the infrastructure :	Artère de Guyenne		
1.2 Name of the TSO :	GRTgaz		
1.3 Additional capacity (GWh/d)	180	TIGF -> GRTgaz Sud	
	150* (S) - 50* (W)	GRTgaz Sud -> TIGF	
1.4 Possible entry points :	TIGF (Larrau - Bariatou - Verdon)		
1.5 Possible exit points :	TIGF (Larrau - Bariatou)		
1.6 Description of the infrastructure :	1 compressor station developing 26 MW at Chazelles		

2		Planning	
	Date as planned	Date as realized	
2.1 Studies start :	2nd half 2007	01/09/2007	
2.2 Preliminary studies :	01/09/2007 - 31/12/2008		
2.3 Environmental & safety studies :	2009		
2.4 Decision :	2009		
2.5 Application for administrative authorization :	2010		
2.6 Construction start :	2011		
2.7 Starting operation date :	October 2012		

3		Comments
	Studies have been launched by GRTgaz although investment is not decided yet, planning has been shifted in accordance with development plan at Larrau.	

(*) Capacities on GRTgaz' grid will be firm after reinforcements of the heart of the network (to be defined)

1		Project description	
1.1 Name of the infrastructure :	Artère du Rhône II		
1.2 Name of the TSO :	GRTgaz		
1.3 Additional capacity (GWh/d)	230*	Entry GRTgaz Sud	
	180*	Exit GRTgaz Sud	
1.4 Possible entry points :	Midcat - Fos LNG terminals		
1.5 Possible exit points :	Midcat		
1.6 Description of the infrastructure :	190 to 210 km pipeline, 42" to 48 "		
	1 compressor station developing 20 MW at Etrez		
	1 additional 10 MW unit at Saint Martin de Crau		

2		Planning	
		Date as planned	Date as realized
2.1 Studies start :		March 2007	29/03/2007
2.2 Preliminary studies :		March 2007 - April 2008	
2.3 Environmental & safety studies :		2008	
2.4 Decision		2009	
2.5 Application for administrative authorization :		2010	
2.6 Construction start :		2011	
2.7 Starting operation date :		October 2013	

3		Comments
	Studies have been launched by GRTgaz although investment is not decided yet.	

(*) Capacities GRTgaz Nord -> GRTgaz Sud & GRTgaz Sud -> GRTgaz Nord remain unchanged
